PROFESSIONAL SUMMARY

Computer Science Engineering graduate with knowledge of Java, Python, SQL, MySQL, Web Development, Machine Learning, Database Management, and Software Development.

Experienced in developing academic projects, building data-driven applications, and solving technical problems. Seeking entry-level opportunities in Software Development, Data Engineering, IT, and Technology roles.

CORE SKILLS

Java, Python, C, C++, SQL, MySQL, HTML, CSS, Angular, Machine Learning, Database Management, Data Structures, Software Development, MS Office, VS Code

EDUCATION

B.Tech in Computer Science Engineering – Vaageswari College of Engineering
(2023–2026) | CGPA: 8.06

Diploma in ECE – Jyothishmathi Institute of Technology and Science
(2020–2023) | CGPA: 8.50

SSC – ZPHS, Chelgal, Jagtial (2019–2020) | CGPA: 10.00

PROJECTS

Local Farmers Market Platform

- Developed a web-based platform connecting farmers directly with customers.
- Designed and managed database structures for customer and product information.
- Improved accessibility and reduced dependency on intermediaries.

Monkeypox Detection System (Machine Learning)

- Built an image-based disease detection system using Modified VGG16 and Custom CNN models.
- Automated prediction processes and improved diagnostic efficiency.
- Performed dataset preparation, testing, evaluation, and documentation.

Automatic Water Level Controller

- Developed a sensor-based water monitoring and control system.
- Led testing, debugging, and validation activities.
- Enhanced reliability and operational accuracy.

SOFT SKILLS

Analytical Thinking, Leadership, Team Collaboration, Communication, Adaptability, Time Management, Quick Learning, Problem Solving.
